Summary

A highly skilled and motivated Full Stack Software Developer with a strong background in front-end and back-end development. Possesses a Bachelor of Commerce in Information Systems and has completed a software development learnership at WeThinkCode_. Demonstrates excellent communication and problem-solving skills, with a proven track record in chat moderation and similar roles. Experienced in developing dynamic web and mobile applications, as well as implementing robust and scalable solutions. Actively seeking opportunities to leverage technical expertise in a challenging and growth-oriented environment.

Professional experience

Frontend Developer Intern

15 Sep 23 - 30 Jun 24

Angelo Goup Technologies | Johannesburg

Key Responsibilities:

1. Assist in the development and maintenance of web applications using HTML5, CSS3, and JavaScript.
2. Work closely with the design team to translate UI/UX wireframes into interactive and responsive web interfaces.
3. Implement front-end components and ensure cross-browser compatibility and performance optimization.
4. Collaborate with back-end developers to integrate front-end and back-end functionalities seamlessly.
5. Participate in code reviews, contribute to best practices, and provide constructive feedback to peers.
6. Stay updated with the latest trends and advancements in front-end development technologies and methodologies.
7. Troubleshoot and debug issues to ensure smooth user experiences

Full Stack Developer Intern

1 Sep 22 - 31 Aug 23

PAICTA | Remote

Key Responsibilities:

1. Collaborate with senior developers to design and implement scalable software solutions.
2. Develop and maintain front-end architecture, ensuring responsiveness and optimal user experience.
3. Integrate APIs and third-party services to enhance application functionality.
4. Write clean, efficient code using industry best practices and coding standards.
5. Participate in code reviews and contribute to continuous improvement initiatives.
6. Assist in troubleshooting and debugging applications to optimize performance and usability.
7. Support deployment and maintenance of applications in cloud environments.

IS Administrator Assistant

1 Jun 21 - 31 Jul 22

AGM Technologies | Remote

Key Responsibilities:

1. Maintained and supported information systems, resolving technical issues and ensuring optimal performance.
2. Managed data entry, database updates, and maintained documentation for system configurations and procedures.
3. Assisted in implementing IT security policies, conducting audits, and ensuring compliance.
4. Provided user training, developed guides, and supported IT projects by coordinating tasks and testing new software.
5. Managed IT inventory, procured assets, and collaborated with departments and vendors for technical support and solutions.
